- Bedroom doors closed when sleeping?
- DIY installation preferred ie no electrician if possible?

Answer the following on a per level basis eg use "Level 0" column if you have single level home, use "Level 0" and "Level 1" for double storey etc

Level 0

Bedrooms?

Escape paths?

Existing mains powered BUT NOT wire interconnected alarms?

Existing mains powered AND wire interconnected alarms?

Wiring will be installed to all alarm locations horizontally across this level?

AutoTest OR ClapSilence OR EscapeLighting required?

Another level above this level?

Is there existing mains AND wired interconnect to the level above?
